THE SYSTEM, VIZ.:

Scrofula or King's Evil, Rheumatism. Obstinate Cuianeous Eruptions. Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Hend, Enlargement and Pain of the Bones and Joints. Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites or Dropey, Exposure or Imprudence in Life; also, Chronic Constitutional Disorders.

In this preparation are strongly concentrated all the Medicinal properties of Sarsafabilla, combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and it has been so fully tested, not only by patients themselves but also by Physicians, that it has received their unqualified recommendations and the approbation of the public; and has established on its own merits a reputation for value and Efficacy far superior to the various compounds bearing the mane of Sarsaparilla. Discusses have been cured, such as are not in the records of time past; and what it has already done for the thousands who have used it, it is capable of doing for the milions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of like, and infuses new vigor throughout the whole animal fraine.

The diseases for which this article is recommended are those to which it is known from personal cxperious to be adapted; and those apparently removed The diseases for which this article is recommended are those to which it is known from personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its value, and each succeeding day is adding new trophies to its fame.

ANOTHER CURE OF SCROFULA. The following striking and, as will be seen, perma nent cure of an inveterate case of Scrotula, commends itself to all similarly afflicted!

Southfort, Conn., Jan. 1, 1848.

Mesers. Sands: Gentlemen—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsuparilla in the case of my with. She was severely afflicted with the scrolula on different parts of the body; the glands of the neck were greatly enlarged and her limits much swollen. After soffiering over a year, and finding no relief from the remedies used, the disease attacked one leg, and below the knee suppurated. Her Physician advised it should be laid quent, which was done, but without any personnent benealt. In this situation we heard of, and were induced to use Sands Sarsaparilla. The first bottle praiseed a decided and invorable effect, relieving her more than any prescription she had ever taken, and before she had used six bottles, to the astonishmen assisted glift of her friends, she found her health quite renteded. It is now over a year since the care was effected, and her health remains good, showing the disease was thoroughly eradicated from the system. Our neighbors are all knowing to these facia, and think very highly of Sands Sarsaparilla.

Yours, with respect,

Koxpuny, N. Y., March 25, 1847. Gentlemen: -My wife has used several bottles o your Sarsaparilla, which I obtained of your agents in in this place, from which she has received such special benefit, that I am induced to add mine to the abunbenefit, that I am induced to add mine to the abundant testimony now before the public in f v ir of its mederinal virtues. Her fisther, mother, in I many other relatives have fallen victims to consamption, and it was supposed that she too was inclined the same way. She had several turns of raising blood, &c., and at length became so reduced that her hie wis despared of from day to day. SANDY SARSFARILLA.—It seems almost unnecessary to direct attention to an article so well known, and so deservedly popular, as this preparation; but patients often who wish to use the extract of Sarsaparilla are induced to try worthless compounds bearing the name, but containing little or none of the virtue of this valuable root; and we think we cannot seem to be not containing little or none of the virtue of this valuable root; and we think we cannot seem to be not containing little or none of the virtue of this valuable root; and we think we cannot take more than two thirds the power than its required to an equal amount of work by the Rotary Cutting Cylinder, now in common use. The construction and organization of this Machine is different from any other now in use. Communications been enlarged to hold a quart, and those wish a really good article will find concentrated in this all the medicinal value of the root. The experience of thousinds which is the root. The experience of thousings which has proved its efficacy in curing the various diseases for which it is recommended; and at the Rotary Catting Cylinder, now in common use. To construction and organization of this Machine is so arranged that it planes the boards with an unbroken shaving the boards with an unbroken shaving the boards with a humbroken shaving the boards with an unbroken shaving the boards with an unbroken shaving the boards with the boards with an unbroken shaving the boards with th decimal value of the foot. The experience of thousands has proved its elficacy in caring the various diseases for which it is recommended; and at the present time more than any other, perhaps, is this medicine vacual, in preparing the system for a change of season.—Home Journal, Sept. 1818.

Y GEO. W. MERCHANT'S CELEBRATED GARGLING OIL. Or Universal Family Embrocation!!!

Or Universal Family Embrocation!!!

RHEUMATISM is more common and distressing, especially in this country than almost any other 1 and at the same time it may safely be asserted that it is as lattle understood and as unsuccessfully treated. Physicians are unable to cure it, even in their own persons. Yet such are the unparalleled virtues of Merchant's celebrated Gargling Od; that the most obstinate cases at once yield to its application. You that have suffered and have failed to obtain relief from the use of all either remedies for Rheumatism, read what Bersey A. Ranney, of Elbridge, Mich., says about Merchant's evidented Gargling Od.

"I have used your Gargling of for inflammatory rheumatism, and found immediate and perfect relief from a painful attack by a few applications. I had previously used other remedies without any benefit; and the relief which I received from the use of your oil was too apparent to admit of a doubt of its value as a remedy for that painful disease."

disease."
In like manner it cures all similar diseases, as
TIC DOULOUREUX OR NEURALGIA. TIC DOULOURFUX OR NEURALGIA.

Joanna Lynchtorch, of Charence, N. Y., states that for tweive years she was severely afflicted with Tle Douboureux or painful affection of the nerves of the face, attended with great swelling and much pain, so that she was mable to attend to her work. That the only sure remedy she had found was in the use of that celebrated medicine known as Geo. W. Merchant's Gargling Oil: by taking it and hy applying it to the per saffected. She also states that she had been afflicted with theseling at the leags and weakness of the breast—that of all the above decayes she had been carried by the internal and external use of this oil: and has since been able to attend to her work. She has also used it with creat success in barries.

The following discoses are among many others in the cure of which this oil has been completely successful, and in which others had entirely tailed:—

Bigs of Administ, External Poissons, Palinful

Bues of Animals, External Poisons, Painful Nervous Affections, Frost Bites, Boils, Corns, Whitlows, Burns and Scalds, Chilbians, Chappel Hands, Cramps, Contractions, of the Muscles, Swellings, Weak-ness of the Joints, Caked Breasts, &c. &c. &c.

CAUTION TO PURCHASERS.

FRAUDS ON THE PUBLIC.—Since the virtues of the Carding Oil have become so extensively and favorably known to the Farmers of the United States and Canada, as a curative oil in diseases of animals, and as a considerable of animals, and as a considerable of the conting great, there has not been wanting those whose cupidity has suggested to them that if they could convoer something as hearly resembling in appearance as they could acres, with anything for a name, they might urge it upon unsuspecting customers, as a substitute for the true Garding Oil. The proprietor would therefore caution those who purchase, to be sure the name of G. W. Markensay is blown on the side of the bottle, and in his handwriting over the cork. At others are an attempt at impation, and are, therefore, an imposition.

Call on the agent for a panishlet which gives a few description of this remarkable requery.

BRONCHITIS CURED.

The following shows the virtue of the Sarsaparilla in removing Bronchitis, a disease which, it not speed dity arrested, leads to Consumption. It allays spass modic action, changes the secretions, and by its tonic and alterative properties, removes the unhealthy action, and the patient is restored to health.

Nantucket, Mass. Nov. 11, 1844.

Messes, Sands—Gentlemen: I wish to make public, for the good of those allicated with Bronchitis, the healing properties of your Sarsaparilla. My will sufficed for twenty months in such a manner as is not easily described: at times she was not able to speak above a whisper, and when exposed to the cold air, it occasioned something like spasms in the throat, the effect of which was left in the cars and eyes, causing tears to flow.
